G. A. R. DELEGATES LEAVE CITY TODAY

Will Attend 48th Encampment in Detroit Beginning August 31.

PLAN TO TAKE UP

Dr. Gleeson Will Ask Authorization to Circulate Attack on Administration.

With arrangements completed most of the delegates of the seventeen posts of the Department of the Potomac G. A. R. are to leave the city today to attend the forty-eighth national encamp ment to be held in petroit. August 31 to September 5. Some of the veterans have

already left the city. The local delegation plans to lay be te the encampment a complete record against old soldiers and their widows, it being believed by G. A. R. men here that Republic. this is the psychological time to make a being killed for their country's sake.

Dr. J. K. Gleeson, department com-mander, has issued a statement for which will be asked authorization for national circulation by the encampment This statement was incorporated in the Congressional Record recently by Rep-resentative Clarence Miller of Minnesota.

A Severe Sufferer.

In championing the cause of the old oldiers, Representative Miller said: "It appears that the old soldier has been a severe sufferer under the present administration. Some interesting records being prepared showing throughout

are being prepared showing throughout the civil service hundreds of old soldiers demoted or expelled, apparently in open defiance of existing laws.

"It appears to be popular to praise our citizen soldiers in extravagant language, honor them, almost glorify them when they enlist in their country's service, and yet there appear to be some of our citizens in official position who are willing, if they do not desire, to humiliate the citizen soldier in his declining days, curtail his means of support and cause him tail his means of support and cause him to die wondering what has become of his grateful country.

So-Called Discrimination.

The purpose of the so-called discrimi nation against the old soldiers, as Dr Gleeson sees it, is "to meet a demand by democratic politicians for some place for rebel soldiers and other democrats." Regarding the efficiency board ganized to pass upon the ratings of those who offered the full measure of devotion—their lives—to save the country," Dr. Gleeson says:

Investigation discloses that ratings "Investigation discloses that ratings in the pension bureau, where the Union soldier is involved, depend upon the prejudiced ratings of a so-called efficiency board, composed of five democrats, four of whom have served many years during the republican administration, and the dominating personality of the board is the son of an ex-rebel soldier. It is hard to conceive of a more diabolical scheme for cetting rid of Union soldiers than that now in operation in the pension bureau."

"Purpose Is Intimidation."

Commenting on the recent speech o Commissioner Saltzgaber, Commander Gleeson says that "its obvious purpose is intimidation and forceful acquiescence of those injured by the unjust official acts of those temporarily in charge of the per sion bureau." Continuing, he said:
"The fact is that these veterans, the heroes of many bloody battles, where their courage did not fail, are now in their old age so cowed by the effect of the rebel forces now in the saddle that they do not dare to make a move in dedo not dare to make a move in de-of their rights, as distinctly pro-for by the act of August 23, 1912 vided for by the act of August 23, 1912, for fear that Damocles' sword suspended over their heads by this 'address' might be let go at any time and end all time their official life."

DOMESTIC.

The first exercise of the veto power by President Wilson was to disapprove reinstatement of Cap.t G. P. Heard to active duty in the Medical Corps. Indorsement of the President's record as ending June 30, is not barred by the provision of law that generally applies to limit the use of appropriations to the fiscal year in which Congress made the appropriation.

"Erection of shelters" is a term so vague to the acting controller that he does not undertake to define with accuracy its limitation. He places the responsibility upon the board of Commissioners, ruling that if it decides that "lunchrooms, offices, toilets, etc." are necessary conveniences in connection with the purposes for which the shelters are to be used, the appropriation is available for shelters with such facilities.

LOADING RAILROAD TIES. Schooner Helen Montague Goes to

Upper Machodoc Creek.

After loading about 3,500 railroad ties at this city the three-masted schooner Helen Montague, which has been lying at the 12th street wharf for the past two weeks, has left for Upper Machodoc creek, on the Potomac, in Virginia, and will there complete the loading of about 10,000 ties, which she will take to Boston. Most of the ties loaded on the Montague at of the ties loaded on the Montague at this city were brought here in canal boats from the vicinity of Seneca, Md.

The Montague brought a carge of laths from New Brunswick for Johnson & Wimsatt and unloaded them here before taking on the laths. She is the first sailing vessel to load ties at this city this season, though one or two schooners have been loaded at Potomac points. Several barges are now reported at points along the river taking ties aboard for New York and Philadelphia, but the Montague is the only schooner loading on the Potomac only schooner loading on the Potomac for an eastern port. It probably will be ten days before she completes her cargo and is ready to start north.
